(Information detailed below relates to the 2021/22 release. It will be updated in June 2022 and emailed, with links, to all applicants in readiness for enrolment.)

QMC has always had an excellent reputation in Hampshire for its sporting programme and team successes. The College boasts exceptional sporting facilities and offers a wide range of academic, enrichment and recreational sport programmes.

QMC is proudly regarded as a Centre of Excellence for football and as a consequence has attracted some excellent male and female players to the College. The College is one of only a small number of colleges in the country to be recognised as a Football Focus College by the FA and AoC Sport, which primarily focuses on developing female football, increasing participation and developing players with special needs.

PLAYING FOR QMC

Playing for one of the College teams is a serious commitment. Players **are expected to be** available for matches and timetabled training sessions. Generally, there are league, cup, merit table, friendly games and tournaments arranged every Wednesday afternoon throughout the Autumn and Spring Terms. These, and the training times, will appear on your timetable. Away matches involve travelling time and you will need to keep yourself free from other commitments, such as work, until a little later on Wednesday evenings.

Details regarding fixtures to be confirmed.

To help avoid injury and to be fit enough for the trials and the start of the College season it is advisable to do some regular fitness training during the summer months and attend pre-season training if you are a member of a club (as and when they re-open).

There is a sport team subscription charge for the year (depending upon the sport). Details of this are contained within the Course Cost Booklet. Subscriptions contribute towards the cost of running the team (transport, playing kit (depending upon the sport), equipment, laundry, pitch/court hire, fees for officials, affiliation and competition entry fees).
